§3-101 MUNICIPAL WATER DEPARTMENT; OPERATION AND FUNDING. The Municipality owns and operates the Municipal Water Department through the Maintenance Superintendent. The Governing Body, for the purpose of defraying the cost of the care, management, and maintenance of the Municipal Water Department may each year levy a tax not exceeding the maximum limit prescribed by State law, on the actual valuation of all real estate and personal property within the corporate limits that is subject to taxation. The revenue from the said tax shall be known as the Water Fund and shall remain in the custody of the Municipal Treasurer. The Maintenance Superintendent shall have the direct management and control of the Municipal Water Department and shall faithfully carry out the duties of his office. The Governing Body shall have the authority to adopt rules and regulations for the sanitary and efficient management of the Water Department subject to the supervision and review of the Governing Body. The Governing Body shall set the rates to be charged for services rendered by ordinance and shall file a copy of the rates in the office of the Municipal Clerk for public inspection at any reasonable time. (*Ref. 17-531, 17-534, 19-1305 RS Neb.*)

§3-103 MUNICIPAL WATER DEPARTMENT; CONSUMER'S APPLICATION. Every person or persons desiring a supply of water must make application therefor to the Maintenance Superintendent. The Superintendent may require any applicant to make a service deposit in such amount as has been set by the Governing Body and placed on file at the office of the Municipal Clerk. Water may not be supplied to any house or private service pipe except upon the order of the Superintendent. The Department shall not supply to any person outside the corporate limits water service without special permission from the Governing Body; provided, the entire cost of laying mains, service pipe, and supply pipe shall be paid by the consumer. Nothing herein shall be construed to obligate the Municipality to provide water service to non-residents. (*Ref. 17-537, 19-2701 RS Neb.*)

§3-104 MUNICIPAL WATER DEPARTMENT; WATER CONTRACT. The Municipality through its Water Department, shall furnish water to persons within its corporate limits whose premises abut a street or alley in which a commercial main now is or may hereafter be laid. The Municipality may furnish water to persons within its corporate limits whose premises do not abut a street or alley in which a Municipal commercial main is now or may hereafter be laid and may also furnish water to persons whose premises are situated outside the corporate limits of the Municipality, as and when, according to law, the Governing Body may see fit to do so. The rules, regulations, and water rates hereinafter named in this Article, shall be considered a part of every application hereafter made for water service and shall be considered a part of the contract between every consumer now or hereafter served. Without further formality, the making of application on the part of any applicant or the use or consumption of water service by present consumers thereof and the furnishing of water service to said consumer shall constitute a contract between the consumer and the Municipality, to which said contract both parties are bound. If the consumer shall violate any of the provisions of said contract or any reasonable rules and regulations that the Governing Body may hereafter adopt, the Maintenance Superintendent or his agent, may cut off or disconnect the water service from the building or premise or place of such violation. No further connection for water service to said building, premise, or place shall again be made except by order of said Superintendent or his agent.

§3-105 MUNICIPAL WATER DEPARTMENT; INSTALLATION EXPENSE. The customer shall pay such tap fee as is set by resolution of the Governing Body and on file with the Municipal Clerk. § 3-105.01 MUNICIPAL WATER DEPARTMENT; WATER CONNECTION FEES NOT IN A WATER DISTRICT.

(1) Fee base. All applicants for connection to the water system which seek to connect to the system where a water district, water extension district, or combined sewer and water district have not been created and whose property shall not have been charged by way of special

assessments for said water service, shall pay, in addition to the deposit required by the Code of the City of Springfield, a water connection fee to the City Treasurer, which water connection fee shall be based upon the following formula:

The City Engineer shall prepare an estimate of the cost of an installed six (6) inch water main. In addition to the estimated cost of the six (6) inch main, the City Engineer shall add a factor to cover engineering fees, bonding fees, legal fees, and other miscellaneous expenses. Based on these estimates, the City Engineer shall then calculate a "per linear foot" estimated cost for the water main. The per linear foot cost shall be recalculated annually and be kept on file in the City Clerk's office.

(2) Application of fee base. The water connection fee shall be calculated by multiplying the number of linear feet of frontage of the applicant's lot parallel to the water line times the Engineer's estimate of the per linear foot water line cost.

(3) Alternate Fee application. In cases where irregular lot configuration lends front footage connection calculations to be inequitable, the City Engineer, with approval of City Council, may use one of the following alternate methods of applying the fee base.

(a) The fee base may be applied prorata to the number of properties benefitted.

(b) The fee base may be applied on a square footage of benefitted properties basis or by a combination of square footage and front footage.

(4) No connection fee shall prohibit the Council from negotiating and entering into a developer subdivision agreement which may specify fees, assessments and other subsequent charges.

(5) Water connection fee is non-exclusive. Payment of a water connection fee under this section does not exclude the applicant from the responsibility of water connection-capital facilities fees which intent is to offset costs of water treatment facilities and supporting structures necessary to provide water service to the property.

(6) No connection shall be made to the water system until such deposit and appropriate water connection fees shall have been paid in full to the City Treasurer.

(7) The City Treasurer shall apply all fees collected to the City Water Fund. (*Ord. No. 471, 9/1/98; Amended by Ord. No. 703, 2/21/06*)

§3-105.02 MUNICIPAL WATER DEPARTMENT; WATER CONNECTION FEES IN A WATER DISTRICT.

(b) The City Engineer shall prepare an estimate of the cost of an installed six (6) inch water main. In addition to the estimated cost of the six (6) inch main, the City Engineer shall

add a factor to cover engineering fees, bonding fees, legal fees, and other miscellaneous expenses. Based on these estimates, the City Engineer shall then calculate a "per linear foot" estimated cost of the water main. The per linear foot cost shall be recalculated annually and be kept on file in the City Clerk's office.

(2) Application of Fee Base. The water connection fee shall be calculated by multiplying the number of linear feet of frontage of the applicant's lot parallel to the water line times the Engineer's estimate of the per linear foot water line cost.

(3) Alternate Fee Application. In cases where irregular lot configuration lends front footage connection calculations to be inequitable, the City Engineer, with approval of City Council, may use one of the following alternate methods of applying the fee base.

(a) The fee base may be applied prorata to the number of properties benefitted.

(b) The fee base may be applied on a square footage of benefitted properties basis or by a combination of square footage and front footage.

(4) No connection fee shall prohibit the Council from negotiating and entering into a developer subdivision agreement which may specify fees, assessments and other subsequent charges.

(5) Water connection fee is non-exclusive. Payment of a water connection fee under this section does not exclude the applicant from the responsibility of water connection-capital facilities fees which intent is to offset costs of water treatment facilities and supporting structures necessary to provide water service to the property.

(6) No connection shall be made to the water system until such deposit and appropriate water connection fees shall have been paid in full to the City Treasurer.

(7) The City Treasurer shall apply all fees collected to the city water fund. (*Ord. 704, 2/21/06*)

§3-105.03 MUNICIPAL WATER DEPARTMENT; WATER CONNECTION-CAPITAL FACILITIES FEES.

(2) When applied. The water connection-capital facilities fee shall apply to all final plats which come before the Springfield City Council for approval, and which have not been previously platted; provided, however, that the City and a developer or subdivider of a residential subdivision may agree in a developer or subdivision agreement that residential water connection-capital facilities fees may be paid when building permits are issued for lots within the subdivision..

(3) Date due. The water connection-capital facilities fee shall be paid to the City Clerk prior to the Mayor signing the approved final plat or at the time agreed to in an approved developer or subdivision agreement.

(4) Distribution of funds. The City Treasurer shall apply the water connection-capital facilities fee to the Springfield Water Capital Facilities Fund.

(5) Water connection-capital facilities fee is non-exclusive. Payment of a water connection-capital facilities fee under this section does not exclude the applicant from the responsibility of water connection fees which intent is to offset costs of water main installation necessary to provide service to the property.

(6) No connection shall be made to the water system until such deposit and appropriate water connection fees shall have been paid in full to the City Treasurer.

(7) The water connection-capital facilities fee shall not create an obligation on behalf of the city to provide any services to the platted properties. (*Ord. 704, 2/21/06*) (*Amended by Ord. No. 904, 10/20/15*)

The Superintendent may require any applicant to make a service deposit in such amount as has been set by the Governing Body and placed on file at the office of the Municipal Clerk. Sewer service may not be supplied to any house or building except upon the order of the Superintendent. The Department shall not supply sewer service to any person outside the corporate limits without special permission from the Governing Body; provided, that the entire cost of pipe and other installation charges shall be paid by such consumers. Nothing herein shall be construed to

obligate the Municipality to provide sewer service to non-residents. *(Ref. 17-149, 19-2701 RS Neb.)*

§3-204 MUNICIPAL SEWER DEPARTMENT; SEWER CONTRACT. The Municipality through the Municipal Sewer Department shall furnish sewer services to persons within its corporate limits whose premises abut a street or alley in which a commercial main is now or may hereafter be laid. The Municipality may also furnish sewer service to persons whose premises are situated outside the corporate limits of the Municipality, as and when, according to law, the Governing Body may see fit to do so. The rules, regulations, and sewer rental rates hereinafter named in this Article, shall be considered a part of every application hereafter made for sewer service and shall be considered a part of the contract between every customer now or hereafter served. Without further formality, the making of the application on the part of any applicant or the use of sewer service by present customers thereof shall constitute a contract between the customer and the Municipality to which said contract both parties are bound. If the customer shall violate any of the provisions of said contract or any reasonable rules and regulations that the Governing Body may hereafter adopt, the Maintenance Superintendent, or his agent, may cut off or disconnect the sewer service from the building or premise of such violation. In the event that any property owner, occupant, or lessee shall neglect, fail, or refuse, within a period of ten (10) days after notice has been given to him to do so by registered mail or by publication in a newspaper in or of general circulation in the Municipality, to make such connection, the Governing Body shall have the power to cause the same to be done, to assess the cost thereof against the property, and to collect the assessment thus made in the manner provided for collection of other special taxes and assessments. *(Ref. 17-149, 17-149.01 RS Neb.)*

§3-206 MUNICIPAL SEWER DEPARTMENT; DIRECT CONNECTIONS. Each and every building must make a direct connection with the main sewer line. Under no circumstances will two (2) or more houses be allowed to make such connections through one (1) pipe. *(Ref. 18-503 RS Neb.)*

§3-207 MUNICIPAL SEWER DEPARTMENT; SERVICE CONTRACTS. Contracts for sewer service are not transferable. Any person wishing to change from one location to another shall make a new application and sign a new contract. If any customer shall move from the premise where service is furnished, or if the said premise is destroyed by fire or other casualty, he shall at once inform the Maintenance Superintendent who shall cause the sewer service to be shut off from the said premise. If the customer should fail to give notice, he shall be charged for that period of time until the official in charge of sewers is otherwise advised of such circumstances. *(Ref. 18-503 RS Neb.)*

§3-208 MUNICIPAL SEWER DEPARTMENT; INSTALLATION PROCEDURE. In making excavations in streets, alleys, or sidewalks for the purpose of installing pipe, or making repairs, the paving, stones, and earth must be removed and deposited in a manner that will occasion the least inconvenience to the public and provide for adequate drainage. No person shall leave an excavation made in the street, alley, or sidewalk open at any time without a barricade, and during the night, warning lights. After the house sewer is laid, the public ways and property shall be restored to good condition. If the excavation in the public ways and property is left open or unfinished for a period of twenty-four (24) hours or more, the Maintenance Superintendent shall have the duty to finish or correct the work, and all expenses so incurred shall be charged to the owner, occupant, or lessee of the property. All installations or repairs of pipes require two (2) inspections by the Superintendent. The first (1st) inspection shall be made when connections or repairs are complete and before the pipes are covered. The second (2nd) inspection shall be made after the dirt work is completed and the service restored. It is the customer's responsibility to notify the Superintendent at the time the work is ready for each inspection. All installation shall be done under the supervision and strictly in accordance with the rules, regulations, and specifications for such installation prescribed by the Superintendent; provided, that the said rules, regulations, and specifications have been reviewed and approved by the Governing Body. (*Ref. 18-503 RS Neb.*)

The customer shall then be required to pay the expense of procuring the materials required as well as the services of a licensed plumber and shall pay all other costs of installation. § 3-209.01 MUNICIPAL SEWER DEPARTMENT; SEWER CONNECTION FEES NOT IN A SEWER DISTRICT.

(1) Sewer Connection Fees. All applicants for connection to the sewer system which seek to connect to the system where a Sewer District, Sewer Extension District, or combined Sewer and Water District have not been created and whose property shall not have been charged by way of special assessments for said sewer service, shall pay, in addition to the deposit required by the Code of the City of Springfield, a sewer connection fee to the City Clerk- Treasurer, which sewer connection fee shall be based upon the following formula:

After any sewer line is constructed by the City, and all or part of the sewer line is outside of a Sewer District, Sewer Extension District, or combined Sewer and Water District, the City Engineer shall prepare an estimate of the cost of an installed eight (8) inch sewer main. In addition to the estimated cost of the eight (8) inch main, the City Engineer shall add a factor to cover engineering fees, bonding fees, legal fees, and other miscellaneous expenses. Based on these estimates, the City Engineer shall then calculate a "per foot" estimated cost for the sewer main. The per foot cost shall then be kept on file in the City Clerk's office. The sewer

connection fee shall be calculated by multiplying the number of linear feet of frontage of the applicant's lot parallel to the sewer line times the Engineer's estimate of the per foot sewer line cost.

(2) Provided that no connection shall be made to the sewer system until such deposit and appropriate sewer connection fee shall have been paid in full; and provided further that such sewer connection shall, when collected, be handled by the City Clerk-Treasurer as follows:

(a) The City Clerk-Treasurer shall apply all funds to the City Sewer Fund. (*Ord. No. 470, 9/1/98*)

§3-209.02 MUNICIPAL SEWER DEPARTMENT; SEWER CONNECTION FEES IN A SEWER DISTRICT.

(1) Fee base.

(a) All applicants for connection to the sewer system which seek to connect to the system where a Sewer District, Sewer Extension District, or combined Sewer and Water District have been created and whose property shall not have been charged by way of special assessments for said sewer service, shall pay, in addition to the deposit required by the code, a sewer connection fee to the City Treasurer, which sewer connection fee shall be based upon the following formula:

(b) The City Engineer shall prepare an estimate of the cost of an installed eight (8) inch sewer main. In addition to the estimated cost of the eight (8) inch main, the City Engineer shall add a factor to cover engineering fees, bonding fees, legal fees, and other miscellaneous expenses. Based on these estimates, the City Engineer shall then calculate a "per linear foot" estimated cost of the sewer main. The per linear foot cost shall be recalculated annually and be kept on file in the City Clerk's office.

(2) Application of fee base. The sewer connection fee shall be calculated by multiplying the number of linear feet of frontage of the applicant's lot parallel to the sewer line times the Engineer's estimate of the per linear foot sewer line cost.

(3) Alternate fee application. In cases where irregular lot configuration lends front footage connection calculations to be inequitable, the City Engineer, with approval of City Council, may use one of the following alternate methods of applying the fee base.

(a) The fee base may be applied prorata to the number of properties benefitted.

(b) The fee base may be applied on a square footage of benefitted properties basis or by a combination of square footage and front footage.

(4) No connection fee shall prohibit the Council from negotiating and entering into a developer subdivision agreement which may specify fees, assessments and other subsequent charges.

(5) Sewer connection fee is non-exclusive. Payment of a sewer connection fee under this section does not exclude the applicant from the responsibility of sewer connection-capital facilities fees which intent is to offset costs of treatment plants and supporting structures necessary to provide sewer service to the property.

(6) No connection shall be made to the sewer system until such deposit and appropriate sewer connection fees shall have been paid in full to the City Treasurer.

(7) The City Treasurer shall apply all fees collected to the City Sewer Fund. (*Ref. 18-*

§3-209.03 MUNICIPAL SEWER DEPARTMENT; SEWER CONNECTION-CAPITAL FACILITIES FEES.

(1) Amount of fee. The sewer connection-capital facilities fee shall be established and listed in the Springfield Fees Ordinance adopted by City Council and kept current in the City Clerk's Office.

(2) When applied. The sewer connection-capital facilities fee shall apply to all final plats which come before the Springfield City Council for approval, and which have not been previously platted; provided, however, that the City and a developer or subdivider of a residential subdivision may agree in a developer or subdivision agreement that residential sewer connection-capital facilities fees may be paid when building permits are issued for lots within the subdivision.

(3) Date due. The sewer connection-capital facilities fee shall be paid to the City Clerk prior to the Mayor signing the approved final plat or at the time agreed to in an approved developer or subdivision agreement.

(4) Distribution of funds. The City Treasurer shall apply the sewer connection-capital facilities fee to the Springfield Sewer Capital Facilities Fund.

(5) Sewer connection-capital facilities fee is non-exclusive. Payment of a sewer connection-capital facilities fee under this section does not exclude the applicant from the responsibility of sewer connection fees which intent is to offset costs of sewer main installation necessary to provide service to the property.

(6) No connection shall be made to the sewer system until such deposit and appropriate sewer connection fees shall have been paid in full to the City Treasurer.

(7) The sewer connection-capital facilities fee shall not create an obligation on behalf of the city to provide any services to the platted properties. (*Ref. 18-503 RS Neb.) (Ord. No. 702, 2/21/06) (Amended by Ord. No. 905, 10/20/15)*

The property owner's duty to repair or replace such a connection line shall include those portions upon the owner's property and those portions upon public property or easements up to and including the point of junction with the public main.

The Municipal Clerk shall give the property owner notice by registered letter or certified mail, directed to the last-known address of such owner or the agent of such owner, directing the repair or replacement of such connection line. If within thirty (30) days of mailing such notice the property owner fails or neglects to cause such repairs or replacements to be made, the Maintenance Superintendent may cause such work to be done and assess the cost upon the property served by such connection. (*Amended by Ord. No. 273, 12/4/84*)

§3-211 MUNICIPAL SEWER DEPARTMENT; CLASSIFICATION. The Governing Body may classify for the purpose of rental fees the customers of the Municipal Sewer Department;
